## Company profile

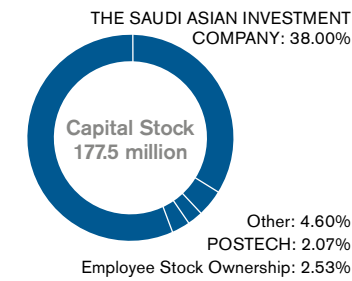

Established in 1994, POSCO E&C is a total solution provider that stands head and shoulders above the competition in not only steel plant construction, but across all construction sectors based on the technologies and expertise acquired in the construction of its globally competitive Pohang and Gwangyang steelworks.

POSCO E&C is taking the lead in developing new markets all over the world, such as in Asia, the Middle East, South America and Europe. Thanks to its philosophy of outright integrity, respect for human life and dignity, and concern for the environment, POSCO E&C is growing into a true global corporation beloved by the international community and society as a whole.

### VISION

## 2020 GLOBAL TOP 10

Develop to rank in Global TOP 10 construction companies by 2020 through establishing a GLOBAL PEPCOM system to become a true total solution provider.

# Global Total Solution Provider

To assist in its goal of becoming a global total solution provider that carries out projects in a comprehensive manner, POSCO E&C has established the Project Planning, Engineering, Procurement, Construction, and Operation & Maintenance (PEPCOM) system. It also continues to secure essential capabilities for each process, including the development of independent designing ability. In addition, it will provide greater satisfaction and services to its customers around the world by further strengthening its core technologies and expertise.

# POSCO Family

POSCO was founded in 1968, and has since grown into a global steel manufacturer based on continuous innovations and an unyielding spirit of challenge. Since its inception, POSCO has been a key driver of national development, practicing sustainable management, by fulfilling social roles and responsibilities and by valuing more than just profit. Along with the POSCO family, POSCO E&C is working to create a better future and to grow together with neighbors, society, and nature.
